

Easter Term 2020

## Immunology and Medicine Webinars

Date	Time (BST)	Seminar title	Speaker's name & institute	Host
12-Jun	13:00- 14:00	Cohort-based whole genome sequencing in Primary Immune Deficiency: the end of the beginning of PID genetics?	James Thaveniran & Ken Smith, University of Cambridge	Menna Clatworthy
19-Jun	13:00- 14:00	"A distal enhancer at the human chromosome 11q13.5 risk locus promotes suppression of colitis by Treg cells"	Rahul Roychoudhuri, University of Cambridge	Andrew McKenzie
26-Jun	13:00- 14:00	Identification of a Kupffer cell subset capable of reverting the T cell dysfunction induced by hepatocellular priming	Matteo Iannacone, San Raffaele Scientific Institute, Milan	Menna Clatworthy
03-Jul	13:00- 14:00	'Role of PYHIN proteins in innate immune sensing and signalling'	Andrew Bowie, University of Dublin	Clare Bryant
10-Jul	13:00- 14:00	Multidimensional Super-resolution Imaging	Steven Lee, University of Cambridge	Andres Floto
17-Jul	<b>N/A</b>	<b>N/A</b>	<b>N/A</b>	<b>N/A</b>
24-Jul	13:00- 14:00	Resistance to Helminths: Location, Immunity and Modulation	Richard Grencis, University of Manchester	Bidesh Mahata

Organiser: Dr Maryam Arasteh
