<td>PS</td>
<td>“BACH 2 basics : from transcription factor to T cell biology”</td>
<td>Ben Afzali (NIH/NIAMS)</td>
<td>Ken Smith</td>
</tr>
</tbody>
</table>
| Sep 8th| PS    | Skin-resident memory T cells in melanoma surveillance                          | Thomas Gebhardt  
Peter Doherty Institute for Infection & Immunity                     | Alice Denton          |
| Sep 15th| PS    | “The impact and outcomes of fluoroquinolone usage”                           | Stephen Baker  
Oxford University Clinical Research Unit, Vietnam / University of Cambridge | Ken Smith             |
| Sep 22nd| LMB   | Novel mechanisms that induce or control IL-1-driven inflammation and immune dysfunction | Murray Clarke  
University of Cambridge                                          | Clare Bryant          |
| Sep 29th| CIMR  | Navigating the ILC Transcriptional Landscape                                  | Gabrielle Belz  
WEHI                                                                | Sarah Teichmann       |
| Oct 6th| LMB   | The Janus-face nature of MmpL transporters in *Mycobacterium abscessus*      | Laurent Kremer  
Université de Montpellier                                        | Andres Fioto          |
| Oct 10th| PS    | "Immunometabolism taught by patients"                                        | Christoph Hess  
University of Basel                                               | Ken Smith             |
| Oct 13th| PS    | "Inflammation-driven Disruption of Iron Homeostasis In Parkinson’s Disease"  | Raffaella Gozzelino  
Universidade Nova de Lisboa                                        | Lalita Ramakrishnan   |
| Oct 20th| PS    | "Host-Microbiota Interactions Shaping Health and Disease"                     | Trevor Lawley  
Sanger Institute                                                     | Arthur Kaser          |
| Oct 27th| CIMR  | "Developing new immune therapies to treat Type 1 diabetes"                    | Frank Waldron-Lynch                                                | TBC                   |
| Nov 3rd | LMB   | 'The RNA synthesis machine of influenza virus and innate immune sensing'     | Ervin Fodor  
Oxford Uni                                                           | Rupert Beale          |
| Nov 10th| CIMR  | TBC                                                                            | Robert Salmond  
Leeds Institute of Cancer and Pathology                           | Maike De La Roche     |
| Nov 17th| LMB   | TBC                                                                            | Cressida Madigan  
UCLA                                                               | Lalita Ramakrishnan   |

Organiser: Dr Tammy Dougan  
Tel No: 01223 330138  
Email: td378@medschl.cam.ac.uk
