

Lent Term 2016

## Immunology and Medicine seminars

FRIDAYS 1-2 pm

Either in the Max Perutz lecture theatre, LMB  
or the Sackler theatre, CIMR.

Date	Venue	Seminar title	Speaker's name & institute	Host
Jan 15th	CIMR	"Disturbed PI3K signaling as causes for primary immune deficiency diseases".	Sven Kracker Imagine Institute, Paris	Sergey Nejentsev
Jan 22nd	LMB	"Immune responses in fat associated lymphoid tissues"	Jorge Caamano University of Birmingham	Martin Turner
Jan 29th	CIMR	"The human immune system is maintained in multiple stable equilibriums shaped by age and cohabitation"	Michelle Linterman, Babraham Institute	Klaus Okkenhaug
Feb 5th	LMB	"Function and plasticity of human Innate Lymphoid Cells"	Hergen Spits University of Amsterdam	Tim Halim for the postdoc's
Feb 12th	CIMR	"The impact of immunogenetic variation on human disease"	Mary Carrington NIH, US	John Trowsdale
Feb 19th	LMB	"Microbiota in lung homeostasis and disease"	Ben Marsland Centre hospitalier universitaire vaudois, Switzerland	Andrew McKenzie
Feb 26th	CIMR	"Mechanisms and pathways of microbe-host crosstalk in the GI-tract"	Simon Carding University of East Anglia/IFR	Marc Veldhoen
March 4th	LMB	"Immunity to exogenous and endogenous retroviruses"	George Kassiotis NIMR/Crick Institute	Leo James
March 11th	CIMR	"Tracking down antigen-specific T and B cells to dissect autoimmunity"	Ludvig Sollid, University of Oslo.	Sarah Teichman
March 18th	LMB	" Structure and composition of hepatitis C virus: novel insights into virus-host interactions required for propagation of infection".	Maria Catanese, Kings College London	Yorgo Modis

Organiser: Dr Janine Wilkinson
